

Dr. Vishwanath Karad
MIT WORLD PEACE
UNIVERSITY | PUNE
TECHNOLOGY, RESEARCH, SOCIAL INNOVATION & PARTNERSHIPS

Established under Govt. of Maharashtra Act. No. XXXV of 2017

Dear Students,

MIT World Peace University- known as MIT-WPU, is a center for scientific, educational, technological & spiritual development for the youth. We enable our students to face the challenges of the present and the future technical advancements of a fast changing world by incorporating best of academics, industrial, research and value-based education.

It has been observed that many students have been using slang / abusive words while talking among themselves. This is highly deplorable in any cultural and civilized organization. This kind of behavior not only speaks about the student family upbringing but also gives very shabby projection of MIT-WPU.

Henceforth use of abusive words and slang should be completely avoided while communicating even among friends and in casual talks. It may be noted that you are probably not aware of the words that you use inadvertently causes humiliation and insult to your friend.

Faculty / staff has been informed to take strict action against defaulters.

Regards,

Gp Capt D P Apte (Retd.)
